

Dahle 20390 High Capacity Shredder

Professional Series

20390

1/4" Shred Size
 55/60 Sheet Capacity
 Security Level 2
 2 1/2 Hp Motor
 Fully Automatic Features

In today's society there's nothing more critical than the accumulation of large volumes of confidential waste. A company's financial records, health information or personnel records can be seen by all if not shredded immediately. This Dahle High Capacity Shredder is just the tool to destroy large quantities of paper in a short amount of time.

The Dahle 20390 has a 16" feed opening and can shred up to 55/60 sheets of paper at a time. This machine is driven by a powerful 2 1/2 horsepower motor and is designed to shred between 12,000 and 28,000 sheets of paper per day. It features full electronic capabilities including such safety features as

automatic shutoff when the door is open and auto reverse to prevent an overfeed.

Housed in a wooden cabinet with casters, this rather stout machine is easy to move and position in its place of operation. This machine fits nicely in company mail rooms or any other centralized location where large amounts of shredded material is taken. Expensive shredding services are no longer needed with the ability to hold 50 gallons of shredded confidential waste. Not to mention the confidence in knowing your documents are immediately destroyed and can no longer be seen by others.

Conveyor of rollers on each side allows for easy removal of the 50 gallon waste container.

The electronic control panel allows for auto on/off, continuous run, and reverse operation.

DAHLE 20390 SPECIFICATIONS
