

40334 HIGH SECURITY SHREDDER

NSA/CSS SPECIFICATION 02-01

In order to protect our National Security, military and government agencies require higher levels of security from their paper shredders. This Dahle High Security Shredder is NSA approved for NSA/CSS Specification 02-01 capable of reducing a sheet of paper into over 15,500 tiny particles. These particles are so small that they have been rendered impossible to reassemble. In a world of uncertainty one thing is for certain, whatever you put through this shredder, we guarantee will never be read again.

This machine is designed for military, federal, state or local governments as well as Department of Defense contractors engaged in projects where National Security is an issue. Designed to be used in a small office or by a team of employees for the destruction of top secret documents. Dahle's 40334 is built with a 10 1/4" feed opening to accommodate both letter and legal size paper with ease.

It uses the latest technology to offer full electronic capabilities including such safety features as Automatic Shutoff when the cabinet door opens and Auto Reverse to prevent an overfeed. Automatic On/Off and Bag Full Auto Off

are features that offer both convenience and satisfaction in knowing you will be notified when it's time to change the bag. Equipped with a built in EvenFlow Lubricator automatic oiling system. This system provides slow, continuous lubrication across the entire cutting mechanism and ensures peak shredder performance.

Those interested in conserving energy as well as reducing electrical costs will enjoy the revolutionary SmartPower Energy Management System. This multi-stage system reduces power consumption after ten minutes of sitting idle (sleep mode), and completely powers down after an additional 20 minutes of inactivity.

As the U.S. continues to face security threats on a global level, Dahle will continue to offer solutions without compromise to operation or dependability.

40334

- 10 1/4" Feed Opening
- Up to 8 Sheets*
- 1mm x 4.7mm Shred Size - Level 6
- Automatic EvenFlow Lubricator
- SmartPower Management
- Made in Germany

Built in EvenFlow Lubrication System evenly lubricates the cutting cylinders reducing the risk of a paper jam.

The easy-to-use command dial controls all of the shredder's functions such as power up, reverse, and continuous run.
