

40606 DEPARTMENT SHREDDER

DAHLE PROFESSIONAL SERIES

Known for its power and waste capacity, this Dahle Department Shredder provides a practical solution for accommodating the shredding needs of even the busiest offices. This machine can continually shred large quantities of paper for extended periods of time. Its attractive design and large waste bin make this a nice addition to any large office, copy room or communications center.

The Dahle 40606 has a 16" feed opening to easily accommodate letter, legal and wide computer paper. It has a maximum sheet capacity of 36/40 sheets at a time and features a large capacity waste bin capable of holding 45 gallons of shredded material.

Energy conservation continues to be a top priority at Dahle. Each shredder comes equipped with the revolutionary SmartPower Energy Management System. This multi-stage system reduces power consumption after ten minutes of sitting

idle (sleep mode), and completely powers down after an additional 20 minutes of inactivity. Dahle SmartPower will appeal to those interested in conserving energy as well as reducing electrical costs.

In order to provide slip free power to the cutting cylinders, a steel chain and gears connect the two components and provide maximum shredding capacity. Removing staples and paper clips are a thing of the past. Dahle shredders can easily accommodate these items without harming the machine and saving you time in the process.

Dahle's shredders are made in Germany using the latest technology and finest materials. The end result is a quality machine and peace of mind in knowing your Dahle shredder will provide many years of trouble free operation.

40606

- 16" Feed Opening
- 36/40 Sheet Capacity
- ¼" Shred Size - Level 2
